

Mobilink first to introduce BlackBerry® Storm™ 9500 in Pakistan

ISLAMABAD: September 08, 2009 - Mobilink, Pakistan's market leader in Cellular Services and part of Orascom Telecom Holdings, has launched the BlackBerry® Storm™ 9500 for the first time in Pakistan.

Mobilink has once again proven its track record of being the industry's technology leader by launching the BlackBerry® Storm™ 9500 under the umbrella of Mobilink indigo, Pakistan's premier post-paid brand that ensures that you derive utmost value out of all your communication. The first-of-its-kind BlackBerry, the smartphone comes with a touch-screen that responds to your every touch whether you are typing, playing games, or simply browsing the internet.

With cutting-edge multimedia capabilities, the BlackBerry® Storm™ smartphone features also include high-end email and web capabilities, a 3.2 MegaPixel camera, crisp and brilliant display (480x360 resolution) and an internal memory expandable up to 16 GB.

The BlackBerry® Storm™ 9500, dubbed as the next generation of functionality mixed with the perfect blend of style, is ideal for users who are ambitious, dedicated, and have clear goals set in their minds along with a sense of style and finesse that makes heads turn wherever they may go.

Mobilink is the first cellular operator to introduce BlackBerry Services in Pakistan and provides unmatched after sales customer support. BlackBerry from Mobilink provides users with a secure, wireless access to a full suite of business and social networking applications.
